### Wildlife Rescue & Rehabilitation

This cute little Fantail was brought in to us debilitated after being caught in the seeds of the Parapara or Birdcatching tree. They can be difficult to treat as they do not thrive in captivity. Thankfully after 2 days of care this fantail got to have his second chance at life as we managed to successfully release him!

Fantails are such friendly, cheeky little birds. They also don't like to sit still for photo's!

### Adopt A Pet Programme

This cute huddle of kittens are just a few of the many felines that we have available for adoption at the moment. It seems to be wishful thinking that kitten season is meant to be coming to an end shortly as we keep having more come in!

These three are de-sexed, micro-chipped, vet checked, vaccinated, de-fleaed and de-wormed and ready to go to their new forever homes.

If you would like to meet these girls or some of the other 20 cats/kittens we currently have please contact us on 07 579 9115 or our foster carer Teena on 07 552 5028.

## Community Cat Project (CCP)

These three kittens are from a colony that we are currently working on. They are just 12 weeks old and were living a rough life outside with a large number of other cats and no regular food supply.

Since these little ones are relatively tame unlike the older cats within the colony, we have taken them in to try and find loving new homes for each of them. They will of course be de-sex, vaccinated, micro-chipped, vet checked, flead and wormed just like all of our other kittens for adoption before going into their new home.

During June we have adopted out **21** cats and kittens to loving homes.

We have de-sexed **34** cats and kittens and

taken a total of **29** off the streets.

Since ARRC initiated this project in September

2012 we have taken a total of **1181** cats off the streets.
