Wildlife Rescue & Rehabilitation

Waxeyes are delightful native birds that we care for on a regular basis. This little Waxeye came to us having been stuck in a Parapara (bird-catching) tree. We took the sticky branches out of the Waxeyes feathers and after a few days of observation he was fit for release. Pictured is the little Waxeye sitting in a tree at the reserve on his big release day!

Community Cat Project

The kitten season has now started, having had the first two kittens of the season come in near the end of September. Their mother was a wild cat who deserted them at only 4 days old and they were brought into us for care. They went off to one of our dedicated foster parents who will be bottle feeding them every few hours for the next few weeks until they are able feed themselves.

If you have experience with bottle feeding kittens and would like to help us, please contact us as we need all the help we can get!!

During September we have adopted out **10** cats and kittens to loving homes.

We have de-sexed **15** cats and kittens and taken a total of **16** off the streets.

Since ARRC started this project in September 2012 we have taken a total of **891** stray / un-owned cats off the Tauranga's streets.

Adopt A Pet Programme

It is only going to be about 6 weeks until we will have kittens for adoption again, and not long after that we will be completely inundated! Our kitten adoption home is run by Teena and can be contacted on 552 5028. But don't forget we have adult cats that are looking for loving homes too. Our cat adoption home is run by Maureen who can be contacted on 578 8335. Our adult cats are \$60 to adopt and our kittens are \$80 to adopt which helps towards the vet costs as they are all vet checked, de-sexed, worm treated, flea treated if they need it, and the kittens have had their first vaccinations.

Thank You! To SBS Bank!
